

Dear Ruth

I am very pleased to confirm the completion of our new lighting system at St.Nicolas. Although a long time in coming the final result is nothing less than spectacular and most certainly worth the wait. Graham Smith's (CES) clever design harmonizes the liturgy and architecture superbly whilst also delivering a flexible system capable of coping with a variety of other occasions. I would also like to praise the whole CES team in the totally professional way in which they carried out the installation.

Regards

Peter Oldroyd
Churchwarden.
